Explanation Of Interest Charges

Interest Charges on Purchases and Other Charges excluding cash advance and balance transfer

If you pay the Total Balance Due on or before the Payment Due Date, interest on purchases and other charges excluding cash advance and balance transfer will not be debited to your account. Each cardholder is permitted up to 55 days' interest free period on new purchases and other charges. In the event, you do not pay your bill in full, interest is computed from the posting date of the transaction to the Statement date of the billing cycle and is accrued daily.

Deferred Interest

Deferred interest is shown on the Statement as "Billed Deferred Finance Charges". Deferred interest are interest charges accrued daily on new purchases and other charges and are applied only when the Total Balance Due is not paid.

Interest on Balance Transfer

Interest on balance transfer is computed from the transaction date to the Statement date of the billing cycle.

Interest on Cash Advance

Interest is charged on cash advances, cash-like transactions and related fees from the transaction date to Statement date of the billing cycle in which the transaction was posted. Cash advance done in the current cycle will be billed even if balance is paid in full by payment due date.

Credit Limit

Your credit limit is shown as part of your Statement information. Transactions that result in your balance exceeding this limit will result in an overlimit charge being applied to the account. Overlimit amounts must be paid immediately.

You may submit a request for a temporary or permanent credit limit increase by emailing creditcardmanager@myvmgroup.com or contacting our Member Engagement Centre using the information on the back of your credit card.
